Hello Greet, Jan and Thomas, hi Cecilia

some weeks have passed by since you were here with Cecilia and gave me your new CD. Every time I listened to it I immediately felt I had to send you a mail, but either I was in the workshop or in the car or somewhere else, and when I was back again the idea was lost. But today it's the other way round, and I'm sitting at my computer and do what I should have done long before.

It's not much , it's just to tell you "blauw gras" has become one of my favourite ones. Unforgettable melodies combined with that thriving rhythm scottish, tovercirkel) or with tender intuition ("Amelie", thanks a lot to Greet for this eternal melody) typical for the young Belgian Bal Folk - just as I like it.

You have made it to the heaven of Bal Folk. Thanks to Jan also for being a great bagpipe player and composer and to Thomas for his excellent playing and his patience at his hurdy gurdy workshops.

See you soon and all the best

Michael
